1. Receipt is acknowledged of the election response filed May 09, 2006.

2. Claims 1-10 remain pending in this application.

3. Applicant has elected with traverse, Group I invention, claims 1-7.

Claims 8-10 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on May 09, 2006.

The restriction is proper in view of the reasons submitted in the previous office action in accordance with this application, which is a 371 of PCT/US03/01202:

In addition, Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process.

Thus, this application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The inventions as stated are not so linked as to form a single general inventive concept under PCT Rule 13.1 and there is a serious burden to examine the additional invention, which would require a different search and examination.

Thus, the restriction as required under 35 U.S.C. 121 and 372 is proper.

Restriction is required under 35 U.S.C. 121 and 372.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. This application is in condition for allowance except for the presence of claims 8-10 directed to an invention non-elected with traverse in the reply filed on May 09, 2006. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
